CRAFTSMAN POWER TOOL BENCHES

CATALOG NUMBERS 10525 AND 1071

CATALOG NO. 10525

CATALOG NO. 1071

A Craftsman Power Tool Bench is the perfect companion to your Craftsman Power Tool. Two basic configurations (one rectangular and the other square) provide a wide variety of power tool mounting combinations.

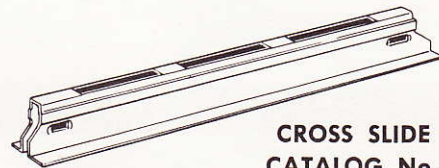

Each bench is constructed of heavy-duty steel members bolted together to form a rigid structure.

The rectangular bench, No. 10525, (16-1/4 x 30 inches) can be adjusted in height from 23-1/4 to 29-5/8 inches.

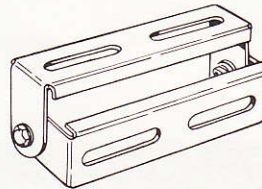

The square bench, No. 1071, (26 x 26 inches) can be adjusted in height from 22-1/8 to 31-11/16 inches.

CRAFTSMAN PEDESTAL-TYPE TOOL STANDS

Craftsman Pedestal-Type, power-tool stands combine big, brawny strength with minimum space requirements. The heavy cast-iron base gives each stand maximum stability while the rigid tubular steel column and cast-iron brackets maintain the mounted tool precisely level.

The motor mount clamps securely to the tubular column, enabling the motor to be positioned directly under the tool or at the rear. A Tool Stand Guard (sold separately—see table below) provides safety protection from drive belts.

NOTE

When fitted with casters (see page 2) any pedestal type stand can be moved readily around the shop.

| PEDESTAL TYPE TOOL STANDS | | | | Tool Stand Guards (catalog no.) |
|---------------------------|----------|---------------------------|------------------|------------------------------------|
| Key No. | Cat. No. | Fits Tool | Tool Catalog No. | |
| 1 | 2964 | Grinder | 1957, 1958, 1959 | None |
| 2 | 2249 | Wood Turning Lathe | 2162, 2388 | None |
