Many modern machines—exclusive features—designed to lower costs in woodworking plants!

For more than 20 years, Dependable has been known as a source for quality woodworking machinery—and our prices have always been "right." Through an unending program of research and field testing, Dependable machines have constantly been improved. Dependable is large enough to volume production—and small enough for individual attention. It will pay you to check with the Dependable line!

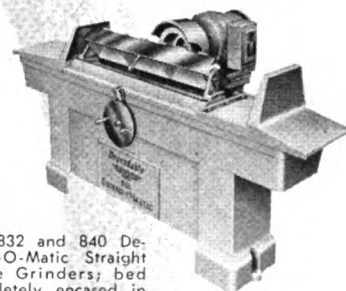

For additional information concerning the Dependable machines shown on this page, please refer to specific bulletin numbers.
