machinery

The complete line of YATES-AMERICAN high quality woodworking machinery

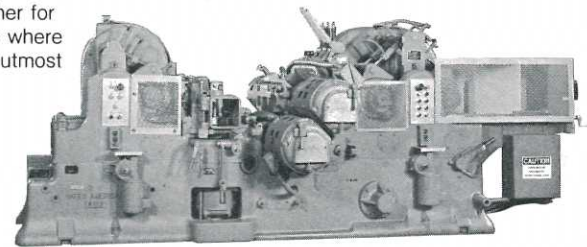

A-20-12 PLANER MATCHER

Direct motor drive (illustrated); belt driven available. Feeds to 600 FPM.

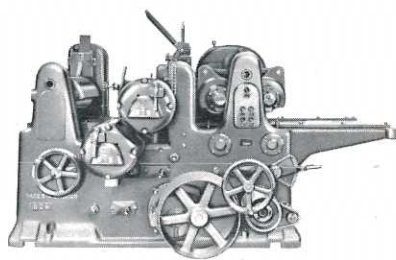

A-63 PLANER-MATCHER

Feeds to 1200 FPM. A heavy duty matcher for production plants where productivity is of utmost importance.

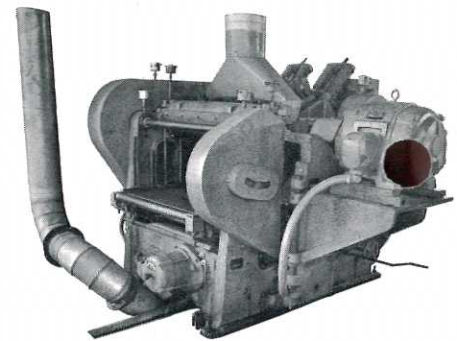

MODEL B-24 DOUBLE SURFACER 20", 24" x 30"

For planing mills, box plants, and flooring plants. A close-coupled machine that will feed 50" long stock at 75 to 400 F.P.M. without butting. Direct motor drive, top head two 20 H.P. motors (2-35 h.p. max.) bottom head 20 H.P.; (max. 35 h.p.) feed motor 15 H.P. (40 h.p. max.)

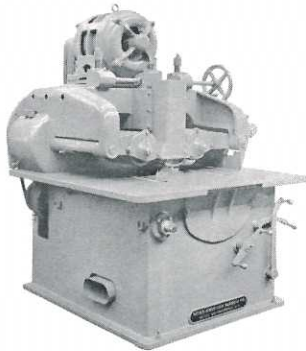

MODEL 177 DOUBLE SURFACER 30" x 14"

An excellent machine for prefinishing stock in furniture factories, lumber mills, etc. Powerful, sturdy, heavy, Vari-feed drive provides an unbroken range of feed speeds from 60 to 160 feet per minute. Motor drive.

MODEL G50-1 MULTIPLE UNDERCUT RIPSAW

Arbor has 18" of saw space with outboard bearing. Feeds 75-300 FPM available. 60 hp arbor drive motor. 5 hp feed.

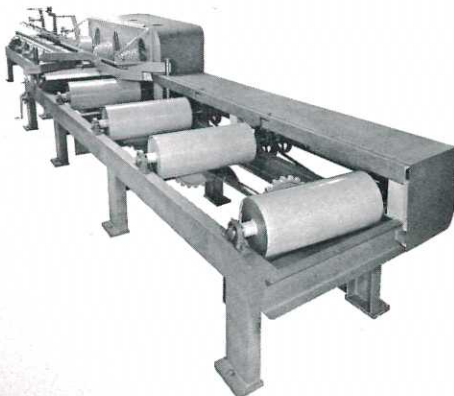

MODEL 328M UNIVERSAL CUTTERHEAD GRINDER

1 H.P. motor, new long ball bearing table, steel guards, calibrated indexing. For grinding side heads and profile heads.

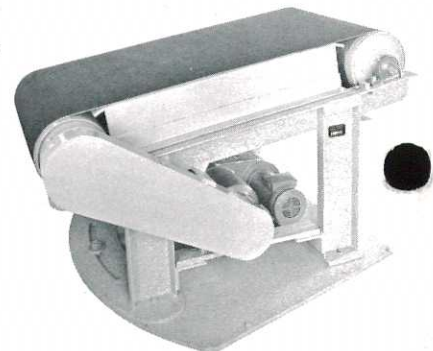

F-30 FEED TABLE

All new heavy duty high speed feed table with various lengths of bridge available.

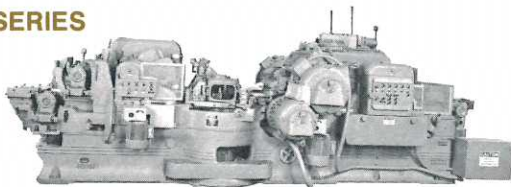

F-36 PLANER SLOW-DOWN BELT

36" wide non-skid belt runs on 12 1/2" pipe rolls with 5' shaft centers. 2 HP variable speed drive and completely adjustable angle setting. May be ordered in other sizes.

**MODEL 409M SERIES
PLANER AND
MATCHER**

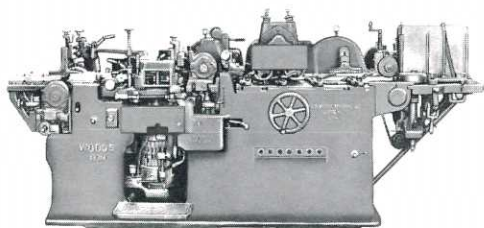

Feeds to 1200 FPM. Three feed rolls: Top rolls 14" dia., bottom rolls, 14 5/8" dia.
Spindle sizes: Side heads 1-13/16" dia., 2-3/16" dia., No. 2 Taper.
Motor sizes: Top head 125 H.P.;

Bottom head, 75 H.P.; Front Sidehead 60 H.P.; Back Sidehead 40 H.P.
Either type "C" Profiler or JM-5 Profiler obtainable at option.

MODEL 137M MOULDER

Woods new, improved 8" Moulder. With "finger-tip" adjustments made from the side of the machine. With all 33 features.

F-24 FEED TABLE

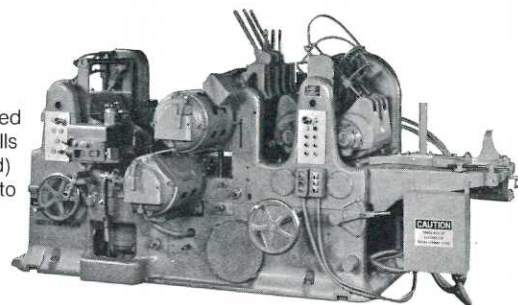

Gear driven "pineapple" spiral fluted feed rolls in many variations.

**Other specialty
machines**

- E-11 END MATCHER
- 80" M STAVE PLANER
- 80" M2A PENCIL MACHINE

**A-50 HYDRAULIC
PLANER
MATCHER**

The hydraulic feed is designed to provide a smooth and synchronized speed to all six feed rolls (4 infeed and 2 outfeed) at speeds of from 400 to 1200 feet per minute.

PLANER MONITOR

Accurately tracks and reports lineal and board footage; elapsed, run, set-up and downtime; number of set-ups; instantaneous rate (FPM); pulse count; percent standard rate; plus 10 causes of downtime, giving number of stops and lost time in each category.

CUTTING EQUIPMENT

CUTTER HEADS
KNIVES
AND BITS

Yates-American, leader in design of Planer-Matchers, maintains this leadership, in part, through constant development of new types of cutterheads and knives. All Yates-American machines are furnished with the latest heads, knives, bits and milled-to-pattern bits available.

Yates-American can furnish up-to-date side heads for any standard cut and profile heads for designs as needed.
